ADR TRANSPORTATION OF HAZARDOUS MATERIALS

Introduction

The transportation of hazardous materials must be done in a safe manner and is governed by numerous legal measures. Drivers must not only know and observe those rules, but must also know what preventive measures to take when loading and unloading. Drivers who transport hazardous materials must hold the ADR certificate.

The training is given by experienced and well-trained teachers. Students are given a training folder at the beginning of the course, which can also serve as a reference book.

Target group and admission requirements

Drivers who (will) transport hazardous materials in tankers and containers and who wish to obtain ADR certification.

Trainees must not have impairments of vision, hearing functions and motor skills. The student is required to wear a helmet and safety shoes during the practical part of the training.

Content and purpose of training

Participants learn the main legal provisions of the transport of dangerous goods by road and ADR/VLG and are able to apply them. After obtaining the ADR certificate, the professional competence requirement to transport dangerous goods by road is met.

During the theory section, the following topics will be covered:

- Legal requirements
- Properties of hazardous substances
- Hazard classes of substances
- Vehicle and equipment requirements
- Transportation rules
- Personal Protective Equipment The

practical instruction includes:

- Measures in the event of an accident/ incident
- First aid

Exam

Upon completion, an exam will be administered at a CBR location.

For participation in the exam, the student MUST have attended every course day. Upon

satisfactory evaluation of the exam, the ADR certificate will be issued.

The ADR certificate has classes Basic, Tank and Class 1 and 7.

The theory exam lasts 45 minutes and consists of 25 questions (15 closed questions general and 2 cases with 5 closed questions each)

In addition, new question types have been included in the exam

General information

Duration of	trainingADR Basis: 2.5 days - excluding the exam ADR Tank:+1.5 days - excluding the exam Class 1: 0.5 day, excluding the exam Class 7: 0.5 day, excluding the exam
Training	LocationOne of V-TAS' locations in the Netherlands or Belgium or in-Company. A prerequisite is that the site is suitable for this purpose. V-TAS can bring the necessary materials for the training if required.
Number of	traineesFor training at one of the V-TAS locations, it is possible from 1 candidate to participate. For in-company trainings, we apply a minimum of 8 people. The maximum number o f candidates is 20.
Start	dateYou can find this on our website in our calendar www.vtas.com or check with one of the V-TAS staff. You can reach us at +31 497 360305. If a suitable date is not scheduled, a suitable solution can always be found by mutual agreement .

Code 95 continuing education hours

The Basic theory course consists of a minimum of 14 clock hours of lessons.
A maximum of 2 days (14 hours) may be registered for continuing education.

The Tank theory course consists of a minimum of 9 clock hours of lessons.
A maximum of 1 day (7 hours) may be registered for continuing education.

The Class 1 theory course consists of a minimum of 7 clock hours of lessons.
A maximum of 1 day (7 hours) may be registered for continuing education.

The Class 7 theory course consists of a minimum of 7 clock hours of lessons.
A maximum of 1 day (7 hours) may be registered for continuing education.
