

DRIVER LENGTH TRANSPORTATION BASIC ®

Introduction

Exceptional transports or exceptional transport applies to loads that exceed the normal legally permitted dimensions and weights for a "normal " transport.

Within this sector, Nootboom Trailers b.v. is a leader in innovating and building appropriate, high-quality solutions for the transport of any kind of exceptional cargo.

Transporting special loads with our advanced equipment requires a certain degree of expertise and knowledge of the equipment , all deviating regulations and of course a different driving style when participating in traffic.

The Chauffeur Length Transport course ensures the safe and responsible transportation of long loads on the Dutch road network.

We are talking about transports that vary in length with increased safety risk.

Target group and admission requirements

- Drivers with no or little experience driving truck combinations, who wish to become proficient in transporting long loads.
- Participants must possess a valid C and E behind C driver's license.
- Drivers must hold a valid CCV Certificate of Professional Competence / Code 95.

Training content

The training consists of a theory and a practical part.

Theory

During the theory section, topics covered include:

- Legal provisions and regulations
- Waivers; interpreting (reading) and applying for them
- Route selection, route exploration digital and live
- Vehicle selection / optimal composition of the vehicle in combination with the load
- Communication with transport supervisors
- Cross-border transportation
- Types of length transportation

Practice - day 1

The practical part consists of:

- Compilation and initial inspection of the correct vehicle combination
- Engineering of the vehicle and trailer or trailer
- Apply legal provisions and regulations
- Load securing and load control
- Apply equipment according to regulations (marking / lighting etc.).
- Exemptions check and Route check (digital)
- Driving with long load < 15 m

Practice - day 2

- Vehicle selection / optimal composition of the vehicle in combination with the load
- Checking exemptions
- Route exploration digital and live
- Apply equipment according to regulations (marking / lighting etc.).
- Discussing the transport with the transport supervisors
- Load securing and load control
- Driving with long load > 20 m with guidance on secondary and main roads

Exam

Afterwards, an exam will be held, participants will receive a certificate and competence pass in accordance with the Working Conditions Act, which is valid for 5 years.
